

K-LOVE provides current Christian music that I enjoy without the interruptions of teaching programs. It is a very uplifting station with excellent announcers. It has a prayer outreach to anyone who contacts them and this can benefit our local community if people choose to take advantage of it. There would be a loss to our community if K-LOVE were to be displaced by an LPFM broadcaster providing other programming. The proof that there is a need for this broadcasting is that it is listener-supported. Since K-LOVE reaches people that other stations do not, I feel that allowing K-LOVE to continue broadcasting is in the public interest. My family really misses it when they are off the air due to technical problems. It is a station that all ages can enjoy together.
